  - Soft Skills: Fast Learner, Adaptability, Teamwork, Accountability, Communication
- 

## PROFESSIONAL EXPERIENCE

### Junior Software Engineer , Emma - The Sleep Company

May 2023 - Present

- Worked on the Content Experience team, using Agile to develop and enhance sections and components for 25 e-commerce websites with a mobile-first mentality.
- Applied Vue.js and Sass to build accessible and user-friendly web interfaces.
- Assisted in migrating websites from Magento to Emma's e-commerce platform (COS) and the transitioning from Nuxt 2 to Nuxt 3, modernizing the tech stack and improving performance.
- Refactored legacy code to improve maintainability and alignment with modern best practices (Options API to Composition API etc).
- Integrated front-end components with ContentStack, Emma's content management system.
- Collaborated on implementing a geolocation feature, improving user navigation and directing users to appropriate regional stores.
- Conducted rigorous testing and documentation, leveraging Storybook to ensure high code quality and component consistency.
- Provided technical support to internal stakeholders, resolved issues and bugs efficiently, and facilitated cross-functional collaboration.
- Worked on the website's color palette re-brush, meeting accessibility standards and closely collaborating with product on ensuring no issues pop-up post release.
- Participated in the implementation of client side AB Tests, using vanilla Javascript and ABTasty.

### Software Development Intern, Emma - The Sleep Company

Nov 2022 - April 2023

- Participated in various workshops covering Emma's technology stack and foundational web development concepts.
  - Initially placed in Emma's Sleep App team, using Kotlin and Jetpack Compose.
  - After 3 months I transitioned to the Content Experience team, focusing on front-end development for Emma's e-commerce websites.
- 

## EDUCATION

### Aristotle University of Thessaloniki, Greece

March 2022

Bachelor of Informatics

- Relevant coursework in Web Information Systems, Mobile Device Interfaces, Graphics, Artificial Intelligence, Internet Educational Environments.
- 

## PROJECTS

### EMILIMICHAEL.COM Portofolio Website

June 2024

- Portofolio website meant to act as a place where I can showcase my skills and also where I can try new stuff and experiment with new technologies.
- Implemented with a mobile-first mentality
- Build using React.js, Next.js, Typescript and TailwindCSS

### Basic e-Learning Environment Website

Sep 2021

- Created a basic e-learning website that serves as a course page where Students can see announcements and information about the course provided by Tutors. The website has a log in system, the credentials being given to the students.
- Used HTML/CSS , XAMPP, PHP and MySQL

### EducationForAll Website

Jun 2021

- Developed a website on Quality Education SDG in a 4-person team, designing structure and color theme using Photoshop.
- Implemented front-end with HTML/CSS, JavaScript, Bootstrap, and back-end with XAMPP, PHP, MySQL, Ajax, and jQuery. Included features like login/signup, contact form, user comments, and an admin dashboard for user and comment management.
